## The perfect frame for your spaces

The philosophy of our creative design, artistic and scenographic laboratory is based on a concept of everyday life and contemporary living.

The laboratory was born from the desire of the creativity of a new concept perfect for those who appreciate design and elegance with unique timeless attributes.

Our philosophy is to guarantee a unique living experience thanks to a collection of design furnishing elements for the home, garden and public spaces that meet all the needs of the luxury project: hotels, lofts, boutiques, rooftops, restaurants, hospitality, private villas .

## A brief introduction of our products

Each armchair in the collection is a sculpture different from the others. The colors are distributed differently each time during processing, creating nuances and particular tones. Each specimen is unique precious .

A self-respecting trendy living room cannot fail to have a fantastic coffee table in the latest fashion, important elements that enclose a studied collection of geometric shapes with surfaces stylized to nature molded into clear shapes and sculptural lines of absolute design rigor between study and functionality characterized by an indissoluble union of elegant and precious surfaces.

Structured tables in fiberglass the original spherical central base with a scenographic design is surmounted by a tempered glass top, which evokes stylized leaves, acquiring a unique elegance and refinement. Interior designers consider it a captivating design object that does not go unnoticed.
